

IN CELEBRATION OF
ASIAN HERITAGE MONTH

Powerful and inspiring story of mainly south Asian immigrant workers strike led by Jayaben Desai, who is now considered a heroine by British trade unions.

Grunwick shattered the perception of mostly female immigrant workers and their ability to mobilize thousands of trade union members for solidarity actions from 1976 to 1978,

It is a story of ordinary workers who confronted racism both in the British society and trade union establishment.

The Grunwick strike became a turning point transforming trade unions in the UK and trade union solidarity across cultures.
